Annual Report

Rooted in Community.
Growing Through Innovation.

Cornell Cooperative Extension
Wyoming County

Thank You

Dear Friends and Supporters of Cornell Cooperative Extension Wyoming County,

Thank you for your continued support of Cornell Cooperative Extension Wyoming County. Together, we are creating opportunities that strengthen youth, agriculture, and communities across Wyoming County.

In 2026, our 4-H Youth Development Program reached more than 725 youth, helping young people build leadership, confidence, and lifelong skills. Wyoming County's 4-H Air Rifle Team earned the Overall National Championship at the National 4-H Shooting Sports Championships. Local 4-H members also represented New York at the National 4-H Conference in Washington, DC, and through a regional 4-H Drill Team performance in Ohio. At the Wyoming County Fair, youth showcased more than 940 exhibits, with an additional 94 exhibits displayed at the New York State Fair.

Our 2026 educational programs connected residents of all ages with agriculture and practical skills. Agriculture in the Classroom reached more than 6,500 students through 480 classroom visits, while Farm to School engaged 1,395 students.

Adult learners participated in maple production, fruit tree pruning, beekeeping, mushroom cultivation, forestry, and woodland stewardship programs. We also expanded farm safety efforts through FarmMedic, Game of Logging, and farm emergency preparedness initiatives. Finally, Master Gardeners helped with community gardens around the county.

Most importantly, more than 166 volunteers generously shared their time, talents, and passion. We are deeply grateful for all they do to make our work possible.

Together, we are building the future of Wyoming County.

Caron E. Gala, Executive Director
Cornell Cooperative Extension of Wyoming County

Cooperative Extension
Wyoming County

Strategic Plan Themes

Renewing Our Commitment to Public Service

Expanding What Leadership Means

Reinforce a Dynamic Agriculture Sector

Support Emerging Agricultural Enterprises, Agri-Tourism, and Home Management

Enhance the Volunteer Experience and Update Facilities

Wyoming County Education and Service

Reinforce the Culture of Agriculture

Strengthen Wyoming County's agricultural legacy by engaging youth and adults in hands-on learning, career exploration, workforce development, and partnerships that support a thriving agricultural community.

Improve Agricultural Market Access and Community Food Systems

Support producers and communities through marketing, agritourism, local food systems, food access initiatives, value-added enterprises, and consumer connections.

Foster Engagement and Experiential Learning

Mobilize volunteers, producers, and community members to participate in educational projects, agricultural heritage activities, peer learning, and community-based programs.

Build Hands-On Skills for Practical Innovation

Provide interdisciplinary learning opportunities that develop technical, management, safety, STEAM, and problem-solving skills through applied, hands-on education.

Leverage Strategic Partnerships

Expand educational capacity through collaborations with Cornell, schools, farms, agencies, businesses, and community organizations.

Enhance Volunteer Recognition and Public Communication

Strengthen volunteer engagement, outreach, communications, leadership development, and public awareness of agricultural programming.

4-H Youth Development

2026 Program Year

Overview

Wyoming County 4-H engaged 725 youth, including 611 4-H members (8-19) and 114 Cloverbuds (5-8), in hands-on learning that built **leadership, confidence, communication, and management skills**.

Members excelled in projects, fairs, presentations, competitions, and service activities, including a National Championship in shooting sports.

Youth exhibited 688 livestock animals across dairy, beef, sheep, swine, horses, goats, poultry, rabbits, and dogs at the Wyoming County Fair, including 216 entries in the 4-H Meat Animal Auction.

Supported by 166 volunteers, 4-H connected young people with agriculture, STEAM, and opportunities to learn, lead, and achieve.

725 **725 youth** discovered new interests, developed valuable life skills, and achieved success through 4-H programs, events, fairs, and national-level opportunities.

114 **114 Cloverbuds** built confidence, curiosity, and friendships through hands-on learning and age-appropriate 4-H experiences.

166 **166 4-H volunteers** mentored youth and helped 4-H countywide.

4-H Youth Development

Program Features

Shooting Sports

National Champions

The Wyoming County 4-H Air Rifle Team earned the Overall National Championship at the National 4-H Shooting Sports Championships in Grand Island, Nebraska. Competing against nearly 100 youth from 27 states, team members demonstrated outstanding skill, dedication, sportsmanship, and teamwork while bringing national recognition to Wyoming County.

4-H Shooting Sports builds focus, confidence, leadership, and responsibility through safe experiences

Horse Clubs

Wyoming County 4-H Equestrian Drill Team

The Wyoming County 4-H American Angels Equestrian Drill Team youth members strengthened their horsemanship, teamwork, communication, responsibility, and sportsmanship while representing Wyoming County 4-H in public events and competitions.

4-H Drill Team members developed teamwork, leadership, confidence, and horsemanship skills.

4-H Youth Development

Wyoming County Fair

940

Creativity on Display

940 youth FCS exhibits showcased creativity, technical skills, communication, and hands-on learning through foods, photography, arts, crafts, gardening, and more.

688

Skills Through Animal Projects

688 livestock and companion animal entries helped 454 youth exhibitors develop responsibility, animal-care, recordkeeping, showmanship, confidence, and agricultural management skills.

Leadership in Action

Master Showman contestants demonstrated leadership, adaptability, communication, and animal-science knowledge across multiple species of animal projects and project areas.

STEAM, Woodworking, Sewing, Art, and Vegetables

Wyoming County youth demonstrated excellence at the New York State Fair, earning purple ribbons for a hydraulic LEGO combine, sunflowers, sewing, woodworking, and gourds. These projects reflected the breadth of 4-H learning opportunities, from STEAM and skilled trades to horticulture and creative arts.

4-H Youth Development

Program Features

Dairy in Action!

5 **Dairy in Action: From Cow to Consumer**
5 youth participated in a hands-on, week-long dairy immersion program designed for teens ages 13-19. It introduces participants to the entire dairy value chain by showing how milk moves from the farm to the consumer; kids interacting directly with dairy producers, veterinarians, nutritionists, and processors while developing practical skills and learning about diverse career pathways.

Fashion and Thrift Project

Six youth participants completed this three-part program, learning fashion fundamentals, budgeting, and thrifting skills.

Each participant successfully created a thrifted outfit, and one member advanced to the New York State Fair, where they earned a Blue Ribbon for their project and presentation.

91 At this year's Wyoming County Fair, clothing, knitting, and crochet made a comeback from 39 exhibits in 2022 to **91 exhibits in 2026**!

Classroom Youth Development

Agriculture and Dairy in the Classroom (AITC)

6,500 The AITC program engaged 6,500 students across four school districts: **Attica, Perry, Warsaw, and Wyoming**.

480 **480 lessons** explored New York's dairy industry, apple production, soil maps, celebrating dairy products, and "planting seeds" of knowledge through hands-on learning.

3 Facilitated 2 elementary **agriculture days** and one **on-farm tour** for students to experience learning beyond the classroom.

FARM TO SCHOOL

1,395
Taste Testing Local Food

Farm to School programming connected 1,395 students with local agriculture through classroom education, taste tests, and partnerships with local farms, helping youth explore healthy foods and the agricultural systems in their communities.

Trading Cards

Farm to School uses books, educational cards, taste tests, and hands-on activities, encouraging students to explore new foods, discover local businesses, and build confidence preparing and enjoying recipes. We also hosted a Fair scavenger hunt with the cards below.

Adult Agriculture Education

2026 Program Year

Overview

Educational Programs 48+

Participants 600+

Topics Covered 20+

CCE Wyoming delivered a diverse array of educational programs serving gardeners, homesteaders, farmers, and community members. Popular recurring groups included the Vegetable Growers Discussion Series which provided opportunities for peer learning and ongoing engagement.

Workshops covered a broad range of topics, including equine management, seed saving, tomato production, fruit tree pruning, berry production, specialty crop cultivation, and air-pruned raised bed tree seedling production.

Key Partners

Cornell Small Farms Program • Harvest NY • NYS DEC • Allegany CCE • Livingston CCE • Chautauqua CCE • Cattaraugus CCE • Regional Agroforestry Team

Adult Agriculture Education

Agroforestry

Mushroom Cultivation

CCE Wyoming County delivered a robust series of mushroom production education events in 2026, including classroom trainings, hands-on inoculation workshops, farm tours, production demonstrations, and regional grower networking opportunities.

Programs engaged beginning and experienced growers while strengthening regional collaboration through partnerships with the Cornell Small Farms Program, Harvest NY, and neighboring Cornell Cooperative Extension associations.

Ginseng Cultivation

The American Ginseng Cultivation Workshop featured Cornell Cooperative Extension specialists with expertise in forest farming and medicinal crop production. Participants gained practical information on site selection, establishment, management practices, regulations, and market opportunities associated with this iconic New York woodland crop.

The strong regional turnout and active participation reflected growing interest in forest-based enterprises that allow landowners to steward woodlands while exploring sustainable economic opportunities.

Key Partners

Cornell Small Farms Program • Regional Agroforestry Work Team • CCE Allegany County • NYS DEC • ForestConnect • Wyoming County Maple Producers Association • Local Demonstration Farms

Adult Agriculture Education

Maple and Honey

Maple: A Fast-Growing Enterprise

Maple Confections Workshop

Merle Maple hosted a free workshop demonstrating how to make coated maple candy in ways adaptable to home kitchen preparation.

Maple Programming and Outreach

CCE Wyoming County's maple programming reached producers, students, woodland owners, and consumers through hands-on tubing workshops, Maple Weekends farm tours, value-added maple confection training, county fair outreach, and forest stewardship education.

Wyoming County Beekeepers

Beekeeping Education and Outreach

Cornell Cooperative Extension of Wyoming County continued to support local beekeepers through educational programming focused on honey bee management, hive health, and honey production. Beekeeping remained a visible component of the Agriculture Program's educational offerings and was highlighted as one of the program areas delivered through workshops and hands-on learning opportunities during the year.

Key Partners

Wyoming County Maple Producers Association • NYS DEC • Cornell Small Farms Program • ForestConnect • Regional Agroforestry Team • Local Maple Producers • Cornell Beekeeper Tech Team • Western New York Honey Producers • Genesee Valley Apiaries

Adult Agriculture Education

Volunteer Outreach

Master Gardener Program

1 VVT Garden at the YMCA

59 Garden Day Participants

100 Farmers Market Contacts

1300 Individuals Engaged Through Outreach

Master Gardener Volunteer Outreach

Master Gardeners judged exhibits, staffed educational displays, served as superintendents, and helped deliver agricultural education through an agricultural scavenger hunt featuring dairy, maple, apples, and honey.

Community Garden Upkeep

Master Gardeners and beekeeping volunteers supported workshops, plant sales, demonstration gardens, outreach activities, and community education throughout the year.

Key Partners

Wyoming Foundation • WNY Foundation • Local Producers • Agricultural Entrepreneurs • Wyoming County Fair Association • Perry Farmers Market • YMCA Community Garden • Food Banks and Pantries

Adult Agriculture Education

Farm and Forest Safety

FarmMedic & Emergency Response Training

Farmers, firefighters, EMS personnel, and emergency managers received specialized training in farm rescue, grain bin safety, bunker silo hazards, and agricultural emergency response.

Farm Safety Pilot Initiative

Five Wyoming County farms developed emergency maps, improved responder access information, and strengthened coordination with local emergency services.

5 Pilot Farms Testing Emergency Mapping

6 FarmMedic, Game of Logging, and NYCAHM Trainings

60+ Farm Emergency Responders Trained

Key Partners

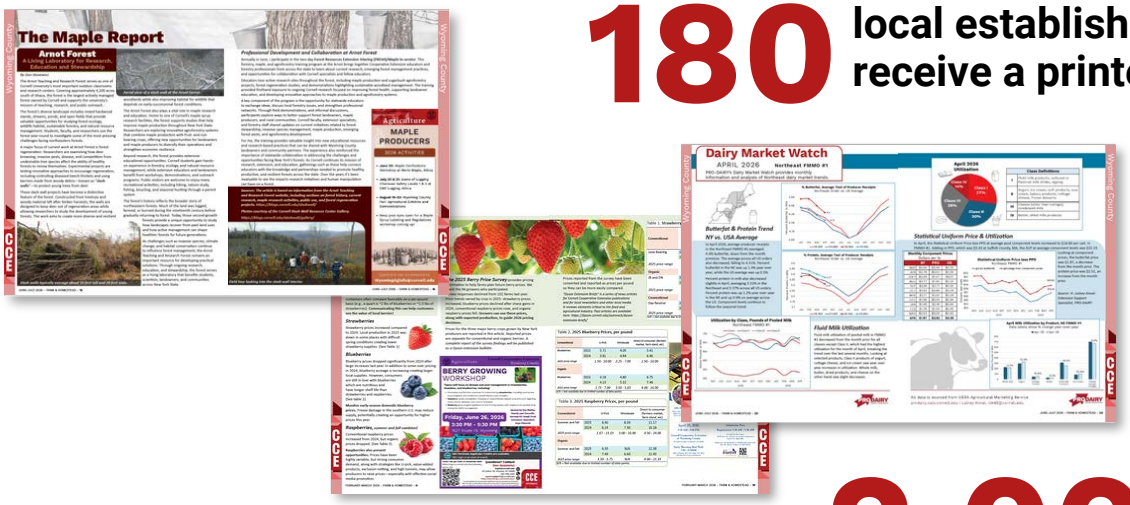

NYCAMH • Wyoming County Emergency Management • Local Fire Departments • EMS Agencies • Farm Bureau • Volunteer Firefighters • Participating Farms

Our Publications

Stronger Communication Efforts highlight the impact and enhance the reach of CCE Wyoming.

The Wyoming County Farm and Homestead News

Branded outreach materials and matching design throughout all our publications was a focus for our communications department this year. We still strive to gather current and relevant information from reliable land-grant sources to circulate to assist our local agricultural community with visually engaging spreads on topics ranging from gardening to regional milk trends, beekeeping resources, and event promotions.

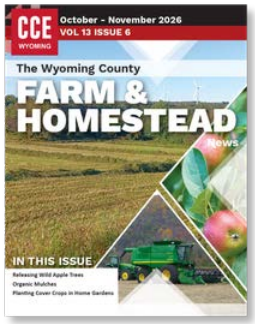

180 local establishments receive a printed copy.

2,000+ contacts now receive our events list directly to their inbox.

Your CCE Wyoming County Agriculture Program Update Monthly Email Newsletter

Emailed monthly is a summary of current events and workshops along with recaps and photos of recent happenings. Links to online resources and webinars for learning at home through our other Cornell and New York State affiliates as well as local community food events and opportunities are provided. Always included is a link to view the latest Farm and Homestead for free online, and a list of all upcoming CCE Wyoming events.

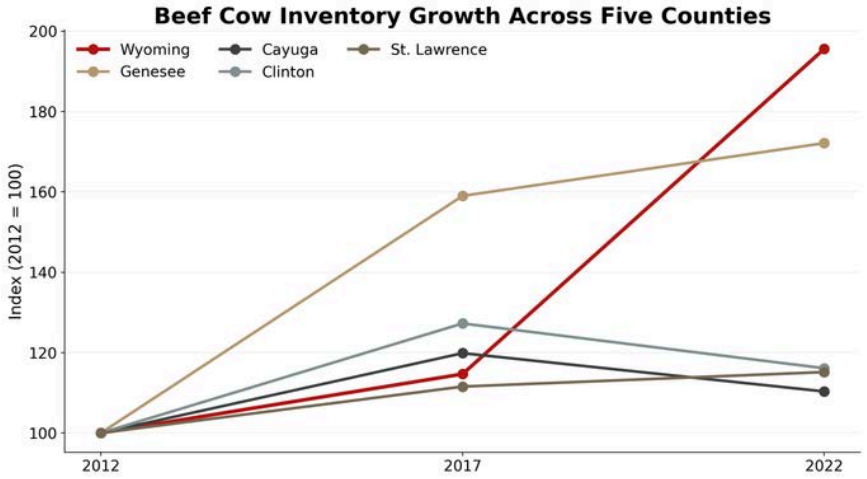

Wyoming County
Food Systems Report

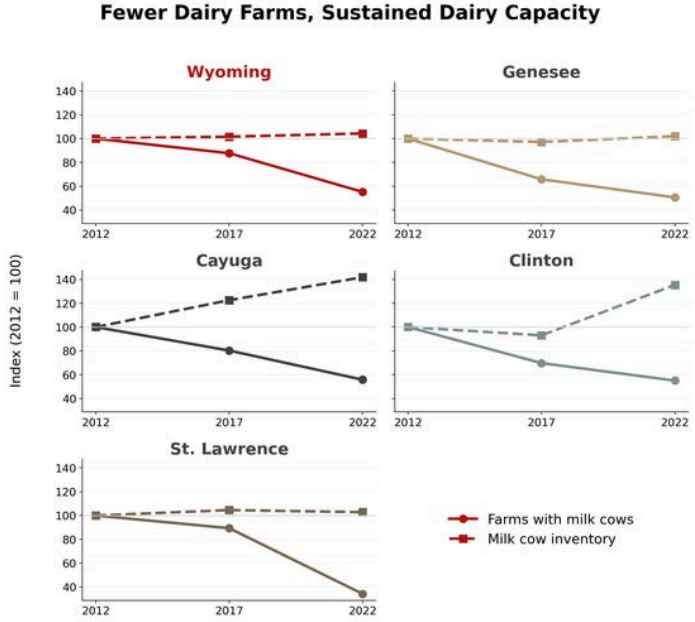

Executive Summary Available

This year, CCE Wyoming staff and youth assistant Madelyn King collaborated to research, write, and refine a comprehensive Wyoming County Food Systems Report. While the full report is still in development, an executive summary has been completed. The final report will be grounded in firsthand perspectives from stakeholders representing the many sectors of Wyoming County's agricultural community relating to food access and security.

42 **Research included interviews with 42 local agricultural producers and analysis of NYS and USDA data.**

Cornell Cooperative Extension
Northwest NY Dairy, Livestock and Field Crops Team

We partner with the NWNY Team to deliver research-based education, on-farm research, and technical support to local producers. Together, they connect Wyoming County farmers with Cornell expertise and practical resources that help improve farm productivity, profitability, and sustainability.

The NWNY Dairy, Livestock & Field Crops Team reaches

300 **estimated contacts per reporting activity.**

Amy Pyra
Livestock Specialist

Pricing Corn Silage

To help farmers make informed marketing and crop management decisions, the NWNY Dairy, Livestock & Field Crops Team **developed and shared timely corn silage pricing estimates** throughout 2026. In response to changing weather conditions and market uncertainty, the team provided updated estimates through newsletters, Crop Alerts, and other outreach channels, helping producers evaluate feed and forage options throughout the growing season. Their annually updated pricing chart estimates the value of corn silage based on current market conditions and supply-and-demand factors. By providing an estimated fall corn silage price, the tool gives farmers a practical benchmark they can use alongside their own local conditions and farm needs when negotiating purchases, sales, and other business decisions. **Producers continue to report that the information is valuable for planning and decision-making.**

2026 Forage Congress

Hosted at The Nunda Ranch, **43 agricultural producers, industry professionals, and stakeholders** gathered for a focused, high-impact educational program centered on climate-smart forage systems. This year's Congress was intentionally designed to address the increasing variability in weather patterns and the growing need for resilient, adaptive forage production strategies across Western New York. **Feedback indicated a high level of satisfaction with both the technical depth of the content and its direct applicability to farm decision-making in the region.**

Expanding the Scope of the State-Wide Neonic Project

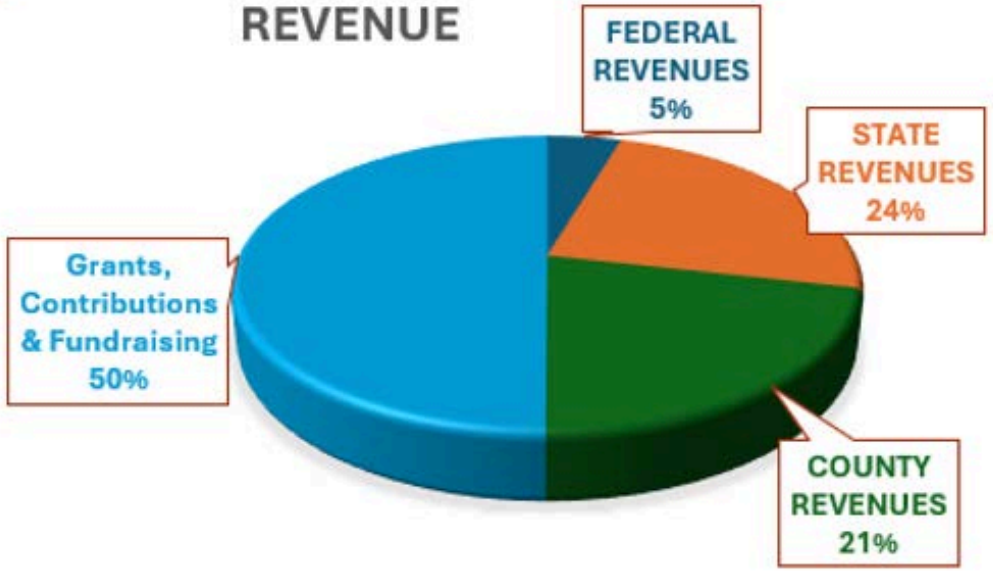

As a result of 2023 legislation, a three-year statewide project led by the Cornell IPM Program and funded by the NYS Ag and Markets was established to assess the cost/benefits of using neonic treated versus untreated seed. **A Wyoming County farm is among those participating** in this important research. This year, the project expanded to 18 regional trial sites, comparing untreated seed, neonic-treated seed, and alternative diamide-treated seed options. **Results from these local trials will contribute to statewide recommendations that help farmers make informed decisions as neonic seed treatments are phased out**.
