2024 TOP FUNDRAISER SELLERS

- 1 **Kate George (\$1,309)**
- 2 **Grace Jywiczynski (\$1,251)**
- 3 **Kenadie Lacey (\$1,147)**

Thank you to everyone who helped make this year's 4-H Fundraiser Sale a success!

Thank you to the 183 4-H'ers who took the time to sell cookies, local maple products and snack sticks in support of our countywide fundraiser. Thank you also to the many 4-H club leaders who helped in the handling and distribution of goods. **And finally, thank you to our 4-H Fundraiser Chairs; Bonnie Bowman, Sandy Brick, Kristen Hess, Robin Hobin, and Amy Hootman-Sterry.** These ladies put in many hours collecting and counting money and paperwork! Without their support, the sale would not be possible!!

As a reminder, our annual fundraiser sale serves as our countywide fundraiser for the Wyoming County 4-H Leaders' Association with proceeds from this sale supporting numerous opportunities for 4-H members and volunteers. This includes a variety of educational award trips, supplemental 4-H project materials used by leaders and members, club teaching materials, National 4-H Week support, 4-H member and leader pins, scholarships for 4-H leaders to attend specialized trainings, and other program incentives. Proceeds from the fundraiser sale are used to purchase public presentation prizes, support activities at the county fair, supplement the cost of our annual recognition night, and pay for youths and adults to stay in the dorms at the New York State Fair.

Thank you again to those who supported this year's Wyoming County 4-H Fundraiser Sale! If you have not participated in this annual fundraiser - we encourage families to do so! We could not offer the breadth of programming for our youth without fundraising!

If you have constructive feedback on how to continue to improve our annual countywide fundraiser, please don't hesitate to contact a 4-H staff member, a 4-H Leaders' Association officer, or one of our 4-H Fundraiser Chairmen.

2024 CLOTHING REVUE RESULTS

The stage was set on Friday evening, May 3rd at the Ag & Business Center for the annual Wyoming County 4-H Clothing Revue. This year's theme was "Leap Into Fashion".

Participation in the 4-H clothing and textiles project builds self-esteem, develops a sense of accomplishment, and allows youth to express their individuality by tapping into their personal creativity! On April 20th and 23rd, sixteen 4-H members had their sewing projects evaluated on all aspects of clothing construction including choice of fabric, sewing, and finishing details, as well as fit in preparation for the revue. 4-H members participated in the evening's revue on May 3rd, which featured a fashion show with twenty garments modeled by those members who completed a clothing project. 4-H'ers modeled an array of garments including sweatshirts, aprons, dresses, and pajama pants. The 4-H'ers had a chance to model on stage while being evaluated on fit, poise, posture, and style of the item they had sewn.

The following 4-H members received recognition and the chance to move onto the district clothing revue hosted by Wyoming County this year in Wyoming, NY on Saturday June 8th: Kennedy Francis of Houghton, Erin and Emma Tillotson of Wyoming, Morgan Strathearn of Wyoming, Vera Cooper of Arcade, Tenley Harris of Linwood, Leah Jones of Warsaw, Audrey Ayers of Portageville and Cody Bang of Varysburg. Any member who participated will be eligible to attend the state fair exhibition.

Congratulations to all clothing revue participants!

- ★ Note: Cloverbuds have special exhibit tags which are available at the 4-H office.

Cloverbud’s and Animal Projects

The Wyoming County 4-H program does allow cloverbuds to exhibit small animal projects (poultry, rabbits and cavy) and leadline horses at the Wyoming County Fair. These projects should be animals that the youth members own and care for on a regular basis, beginning by at least June. Cloverbuds who wish to bring a small animal to fair can choose one poultry animal, one rabbit/cavy, or one each of poultry and rabbit.

Cloverbud exhibitors will bring their project animals to fair just like older exhibitors on the day their species arrives and house them at the fairgrounds for the entire duration of the fair. Cloverbud members will be expected to care for their project animals each day at the fair. Depending on how many entries we receive, cloverbuds may be asked to take animals home after the show.

When it comes time for showing cloverbud small animals, keep in mind there is no competition. This opportunity is provided for cloverbuds to be able to experience bringing small animals to the fair, caring for them, and learning about how to show for the future. On show day for each particular species, cloverbuds will have the opportunity for a “mock show” where they will do showmanship with a volunteer. In order to prepare for this, we highly encourage each cloverbud exhibitor to attend a poultry or rabbit club meeting/showmanship clinic.

Cloverbud exhibitors WILL NEED to fill out a regular animal fair entry form and turn in to the 4-H office by July 15th. Please contact the 4-H office with questions or for more details.

**TUESDAY, AUGUST 6TH
5:30PM**

Dairy, Livestock & Small Animal Exhibitors: come on out and help spruce up the barns before the fair starts! Bring shovels, brooms, rakes, pitchforks, wheelbarrows, etc.

If your club has a specific project you would like to do, call the 4-H office to let Holly know!

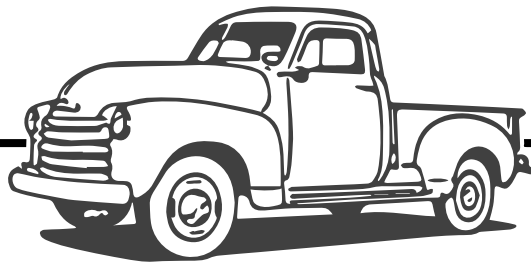

Please keep in mind that Tuesday, August 6th is our 4-H Barn Clean-Up. We would appreciate everyone's help in getting general cleanup done before clubs and individuals start setting up displays. With that said – exhibitors may start setting up after 7pm on Tuesday, August 6th. Also keep in mind that we really can't have people "working" in the barns all hours of the night. It is 4-H's responsibility to turn out the lights and lock things up the best we can each night. Please be respectful of these requests. Thank you in advance!

ATTENTION 
DAIRY, HORSE AND LIVESTOCK PARENTS!

Reminder that **no Dept. H exhibitors** are permitted to stay overnight in the barns while participating in youth activities at the fair. Any Dept. H exhibitor that will be staying in a camper on the fairgrounds must be accompanied by a parent or guardian, 21 years of age or older.

Exhibitors staying on the fairgrounds overnight in a camper **MUST** have their parent or guardian fill out an exemption form from the 4-H office. The exemption form needs to be on file in the 4-H office by the opening day of the fair and must be signed by the parent/guardian and chaperone.

Please feel free to call the 4-H office at 585-786-2251 with questions or to request an exemption form.

A complete summary of health requirements can be found in the front of the Fair Book!

1. Rabies shots must be given to cattle, horses, dogs, and sheep that are 4 months of age or older on the date of admission to the fair. It is recommended that rabies shots also be given to goats and hogs. The vaccine must be given at least 14 days prior to the fair and within the last 12 months. When a booster shot is given to a previously vaccinated animal, the shot must be given prior to coming to the fair.
2. Animals must be free of all contagious diseases such as ringworm, warts, mange, orf, respiratory infections and contagious hoof infections. Warts must be removed and healed prior to coming to fair.
3. **Cattle, Sheep, Goats and Swine must be identified by USDA approved official identification. Call the 4-H office if you have any questions about acceptable forms of ID.**
4. For New York State animals, certificate of veterinary inspection (CVI) is required. This is a health chart (Form AI 61). The CVI is often referred to as "health papers" or "health certificate." This chart must be completed on or after May 1st of the current year. All animals, even those under 3 months of age, need to be individually identified and included on the health chart.
5. Tuberculosis testing on New York State cattle will not be required.
6. A signed written statement from the attending veterinarian is required as proof of vaccination.
7. Cattle must be vaccinated against Bovine Respiratory Disease Complex (shipping fever, etc. Vaccination must include immunization against bovine viral diarrhea (BVD), bovine respiratory syncytial virus (BRSV), infectious bovine rhinotracheitis (IBR), and Parainfluenza (PI3) with a product administered in a manner and time frame adequate to confer protective immunity for these diseases for the duration of fair.
8. Observe milk and meat drug/vaccine labeled withholding times. (Usually 21 days is required between giving a rabies shot and slaughter and 21 days on the Bovine Respiratory shots.)
9. Out of state animals coming to the fair must satisfy import health and test requirements for that species. The interstate health chart is valid for 30 days from the date of issuance with regard to entrance into New York State. Import test requirements are different for different states, based on diseases that are found in that state. For more detailed information contact N. Y. S. Department of Ag and Markets at 518-457-3971 or online at www.agmkt.ny.us.
10. If any sheep or goat within a flock shows evidence of Soremouth, the whole flock must be removed from the fairgrounds.
11. Sheep and goats must be identified with an official scrapie tag or tattoo. In order to prevent scrapie contamination, any sheep or goat showing any uterine drainage will be sent home.

BIOSECURITY AT THE FAIR

These practices contribute to keeping your animals healthy and help to protect Wyoming County Agriculture. Adapted from California Department of Food and Agriculture, Biosecurity at the Fair brochure.

BIOSECURITY BEFORE THE FAIR

Disease prevention and fair biosecurity start before exhibitors leave home. Only healthy animals should be entered in the fair. Before animals leave the home premises, the herd or flock veterinarian should examine each animal to ensure healthy animals enter the fairgrounds. Tools and equipment may harbor disease agents. To minimize potential disease spread from the home premises to the fair, before packing for transport, clean and disinfect: Feed equipment: buckets, feeders, hay racks. Cleaning utensils: shovels, pitch forks and wheelbarrows. Grooming equipment: clippers and brushes. Vehicle and trailer (inside and outside).

BIOSECURITY AT THE FAIR

To protect fair animals and minimize disease transmission risk while at the fair: Limit animal-animal contact. Limit animal-human-animal contact. Avoid sharing equipment with other exhibitors unless you thoroughly clean and disinfect between use. Cover feed and equipment to reduce risk of contamination. Change clothing, hats, and shoes used at the fair before doing chores at home. At the end of the fair, clean all animals returning home and disinfect all equipment before loading the trailer. Unused feed, hay and bedding should be discarded at the fairgrounds, not taken home.

BIOSECURITY AFTER THE FAIR

The possibility of animal exposure to disease agents can occur with even the best biosecurity practices at the fair. Since they may be harboring disease agents without clinical signs, animals returning from the fair should be isolated from other animals and pets. Monitor animals in isolation daily for signs of illness and contact the herd or flock veterinarian if any unusual symptoms are observed. To minimize the possible chance of disease spread to the main herd or flock, modify your chore routine to care for isolated fair animals last. Keep equipment used in caring for isolated fair animals away from other animals in the herd or flock. Change your clothes after completing chores for isolated animals. Consult your veterinarian to develop an isolation plan suitable for your premises and herd or flock. Use of fair biosecurity is a good management practice.

MEAT ANIMAL MID-WAY WEIGHT CHECK

Saturday, July 6th

10am - 12pm at the Wyoming County Fairgrounds

This is an opportunity for meat animal participants to bring project animals to the fair for a weight check if you do not have access to scales at home. You will be responsible for offloading, getting your animals to and from the scales, and reloading them on your truck or trailer. This is totally optional but a good opportunity if you are unsure of how your project animals are doing in terms of weight.

*Beef cattle must be well halter broke if you plan to utilize this option

*Vets must inspect entire flock/herd for sheep and goat CVI's - if you have additional sheep and/or goats at home, this is NOT a good option for fair Health charts; you should contact your vet directly!

Contact Holly in the 4-H office with any questions for more details.

Biosecurity for Horse Events

Any time horses are congregated at events, owners increase the chance that their horses may be exposed to an infectious disease agent. An example is EHV-1. Pathogens may be brought to and spread at an event by horses, people, domestic animals other than horses, vehicles, equipment, insects, ticks, birds, wildlife including rodents, feed, waste and water. By following these simple guidelines, you can help minimize that risk.

- Consult your veterinarian to establish an appropriate vaccination program for your horse(s).
- Tie your horse(s) to your trailer. If using a stall, clean and disinfect it, if possible, before stalling your horse. Always use clean, fresh bedding.
- Minimize your horse(s) having direct contact with unknown horses, especially nose to nose contact.
- Use your own water and feed buckets. Avoid letting your horse(s) drink from a communal water trough. Fill water buckets from a faucet.
- Do not share grooming equipment or tack. If you must, then wash and disinfect it before returning to your own horse(s).
- Avoid petting and touching other horses in order to minimize the risk of transferring a disease back to your horse. If you must handle other horses then wash your hands or use hand sanitizer.
- Avoid letting strangers pet your horse especially if they have horses of their own.
- Before returning home from an event clean up your equipment (boots, tack, grooming supplies, buckets, etc.) to help reduce the risk of transporting an infectious agent back home. Consider washing and disinfecting your trailer when you return home.
- If possible, isolate your returning horses for 2 weeks or at least prevent nose to nose contact with your other horses.

Don't forget to consult your veterinarian concerning these and other steps you can follow which may reduce the risk of your horse acquiring an infectious disease while traveling.
